Press Release

Vermillion USD #380

Press Release

Date: October 31, 2011

Re: Survey Results

We have received the surveys that were sent out to all the patrons of the Vermillion Unified School District #380 in the past weeks or so and here are the top rankings that the patrons recorded on the surveys to be:

- To keep the two K-12 at Centralia and Frankfort
- To have a Vocational School at one of the attendance center and an Academic School at the other attendance center and the K-8 in each of the attendance centers at Centralia and Frankfort
- To build either 7-12 or 9-12 consolidated school in the middle of the school district was a distant third

There were a number of questions which we will be responding to in articles to the local newspapers and our home page of the Vermillion School District but most important is that we will prepare information to be given at future community meetings across the Vermillion School District. Information about what it will take to fund the two K-12 schools and option 2 on the Vocational and Academic schools.

Finally, we appreciate all the patrons that took the time to complete the surveys for the future of the Vermillion School District planning for the next three years or so.

Richard W. Flores, Superintendent

Board of Education, USD #380
