

by Isaac Gore

(3rd grade - Centralia Elementary)

Upon entering my school this year, I saw Tables instead of desks. I saw mailboxes, Plus I didn't know that it was even a mailbox. I also had a new teacher. Her name is Mrs. Conley. Our class also has a new student, her name is Jewel. Plus I saw three globes hanging from the cieling. But last but not least I saw a new classroom and a new year of school.

(5th grade - Centralia Elementary)

The first things diffrent at our school is there are a bunch of new kids, and teens at our school. They built a roof on stilts at the playground. They sanded and painted the gym floors. They got brand new buses for the bus drivers. Some of the teachers switched rooms this year like Mrs. Gleason was downstairs, and now is on the ground floor.

(4th grade - Frankfort Elementary)

Upon entering my school this year I saw many new things. I saw teachers whith happy faces, and new and friendly faces. There sat text books piled high on my desk. I also saw the teachers desk with papers on it, and a oppportunity to learn. All of the things I saw were great things, and I was excited to be back at school
